

## Office Area and Parking Management

### Office area safety precautions

- ▶ Please slow down when driving in office area, yield to the pedestrians when passing the crossroads.
- ▶ Winter road is slippery, be careful when walking.
- ▶ Keep the offices and workshops clean and tidy.
- ▶ Photos and video footage are not allowed without specific permission, please take care of your information security.

### Parking regulations

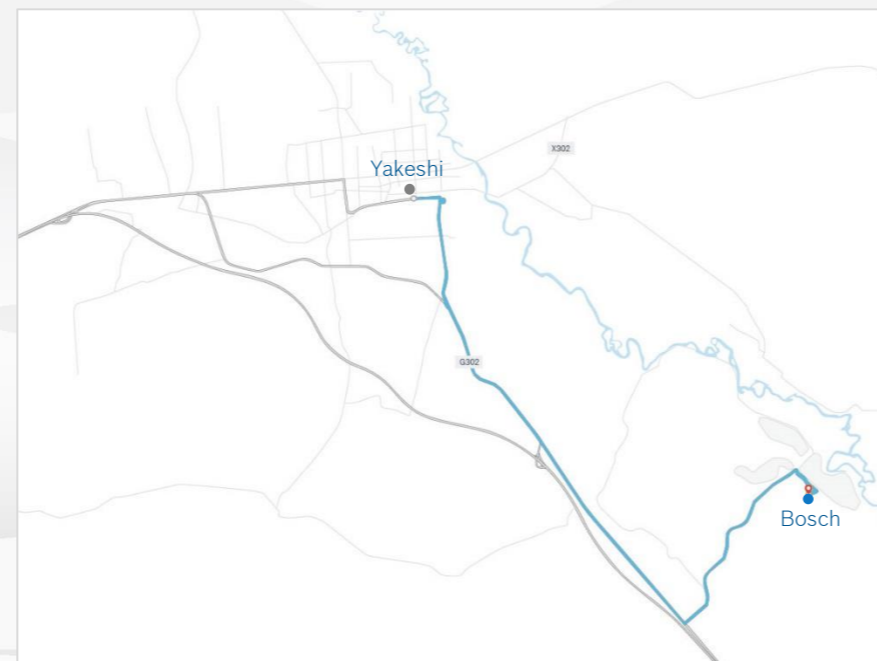

- ▶ Park only in the designated parking area, we planed specific parking zones for site management vehicles, new energy vehicles and other testing vehicles, please refer to the onsite signs.
- ▶ To facilitate emergency rescue, please keep the front of the car facing out. To avoid unauthorized persons starting your vehicle, please stop the engine and lock the door before you leave.
- ▶ For indoor parking, leave the key on dashboard and keep the driver's window open. Do not block the escape door, routine or emergency exits.
- ▶ The tested vehicles must be parked in outdoor parking zone.

### Vehicle heating regulations

- ▶ Vehicle heating is only allowed in zone P1 and P2. (See above)
- ▶ To heat up your vehicle, please get a heating plate from service center and leave it on the hood.
- ▶ Vehicle heating hours: 8:00 – 9:30
